## Mrs. A. C. James Will Head 'Assurance Policy Campaign'

Drive for \$500,000 for Y. W. C. A. Home Will Be Started.

MRS. ARTHUR CURTISS JAMES, it was announced yesterday, will be chairman of the "Assurance Policy Campaign" about to be started in all the larger cities to raise \$500,000 for the home and foreign program of the Young Women's Christian Association. Among the many women of national note Mrs. James was selected to head the drive because of the first hand information about the world work of the Y. W. C. A. she has gained as the leading globe trotter among American women.

Last spring Commodore and Mrs. James returned from a world wide cruise on board their auxiliary yacht the Aloha. In that cruise, in which they repeated past experiences, Mrs. James made a study of the work of the Y. W. C. A. in foreign lands. She has just closed her Newport house and has accepted invitations to speak in Chicago, Washington, St. Louis, Baltimore and Pittsburgh on the work she has observed in Y. W. C. A. centers in Honolulu, California, Yokohama and Peking. Her speaking tour will be extended to cover all the large cities.

"My interest in the Y. W. C. A. is the result of my last world journey," said Mrs. James yesterday. "From September to June I was engaged to travel at what America is doing around the world, and not the least of the wonders that I observed was the work for girls in foreign lands carried out by the Y. W. C. A. The best American ideals are being passed on to the women of India, Japan and China. At the same time the best that is the heritage of their own lands is retained."

"Everywhere we went we received the hospitality of the Y. W. C. A. Honolulu has a thriving association, but sadly needs a training school to prepare for leadership hundreds of Japanese girls who are eager to enter the work. Yokohama and Tokio, too, are anxious to take over their own leadership, and with a little more help and guidance will be able to do so. Although American secretaries are teaching Japanese girls American ideals, they are not making Americans out of them or introducing proper style. I was engaged to travel at what America is doing around the world, and not the least of the wonders that I observed was the work for girls in foreign lands carried out by the Y. W. C. A. The best American ideals are being passed on to the women of India, Japan and China. At the same time the best that is the heritage of their own lands is retained."

"Miss Elizabeth Wilson, an American secretary, is pioneering in a training school for Indian workers in Calcutta. In the Philippines we missed the friendly blue triangle, and that is one thing that I hope may come from this campaign. Part of the money which we expect to raise will go toward the work in the Philippines."

"In addition to this new enterprise it is desired to start again operations in Russia, where there is at present so great a need. My recent observations have opened my eyes to the many sided program of the Young Women's Christian Association and I would never be content to see it abandoned in any of the forty-seven countries in which it is now operating."
